

SUDDEN IMPULSE OF CRAZY WOMAN

Threw Her Little Ones Overboard and Went Down to Death After Them.

A PITIFUL INSANITY CASE

HUSBAND PROSTRATED BY THE NEWS.

Fall River, Mass., Feb. 20.—Mrs. John W. Waters of New York, and formerly of Chicago, threw her three children overboard and then committed suicide last night by jumping from the steamer Plymouth. The children included a girl of 4 years and two smaller children, one a baby in arms.

Mrs. Waters left a number of letters, one of them in the nature of a will, disposing of the writer's personal property. One of the missives was written on a part of an envelope, the other on a piece of wrapping paper. The note on the envelope read:

Could Not Leave Children.

"Dear Husband—Forgive this trouble. I have nearly broken my heart. Dear John, forgive me for causing you this sorrow, but I could not live and I could not leave our children. I have worried so much I fear insanity, and I could not leave the children."

The letter which disposed of the woman's personal property contained the name of John W. Waters, 170 Broadway, New York. Various rinkets and articles of wearing apparel were disposed of in the hurriedly written will.

After having searched the boat and finding no trace of the woman or the children, the officers became convinced that the woman had thrown them overboard and leaped in after them. Persons occupying state rooms near by heard one of the children crying at about midnight. From that time until about 3:30 a. m., when the fact was discovered, the state room was not occupied, no other disturbance was heard.

Identity Established.

Upon the arrival of the steamer here the evidence in the case was turned over to the local police for investigation, with the result that her identity was established.

Dwight Brady, son of Captain James Brady, collector of the port of Fall River, identified the articles found in the state room as belonging to his sister, Mrs. John Waters, of Brooklyn, N. Y. He could give no reason, he said, for the woman's action beyond the fact that she had said that she was not happy. Mrs. Waters was 30 years of age. The three children included Helena, 4 years of age; Dorothy, aged 2 years, and a boy baby 16 months old.

Husband Prostrated.

New York, Feb. 20.—John W. Waters is manager of the fire insurance bureau of the National Association of Manufacturers. He was prostrated when told of his wife's death, but later arranged to go to Fall River this afternoon. To a business associate Mr. Waters said that his wife had been subject to short spells of insanity, and that she spent some time in a sanitarium several years ago.

CONSUL ASKED TO LEAVE

Differences Between Greece and Roumania Becoming Acute.

Bucharest, Roumania, Feb. 20.—The Græco-Roumanian differences due to the alleged ill treatment of Greeks in Roumania have been further complicated by a demand of the foreign office that M. Kapsambelis, the Greek consul at Constantza, leave Roumania immediately. It appears that while accompanying a compatriot who was embarked on a steamer under order of expulsion, M. Kapsambelis publicly voiced his resentment in a manner so insulting to the Roumanian government that the latter had no choice but to demand his departure from the country.

The trouble between Greece and Roumania is due to the fact that the Sultan of Turkey in May, 1905, issued an irade officially recognizing the Roumanian or Kutzio-Vlach element in Macedonia. This caused irritation among the Greeks who boycotted those employing the Roumanian language in church services. The excitement thus aroused in Macedonia led to reprisals against the Greeks in Roumania.

MOROCCO CRISIS AGAIN THREATENS

Germany Rejects Proposal at Algiers of French and Spanish Police System.

PRIVATE NEGOTIATION ENDS

APPEAL NOW TO BE MADE TO OPEN CONFERENCE.

Paris, Feb. 20.—Germany's rejection of France's proposal at Algiers that the proposed Moroccan police system shall be French and Spanish has given renewed gravity to the Franco-German situation. It is officially announced that Germany's action leaves France no course but to terminate the private negotiations and appeal to the judgment of the world before the open conference. This decision suspends the meetings between M. Revell, head of the French mission at Algiers, and Herr von Radowitz, chief of the German delegation, at which they have been seeking to find an accord. The failure to agree promises to result in a prolonged crisis in which each side maintains the position which it took up before the open conference.

Reports are in circulation to the effect that France intends to withdraw from the conference, but they are not confirmed and the determination of the French delegates to carry the case before the open conference shows that the withdrawal stage has not yet been reached. It is expected that the strained situation will have the effect of renewing the alarmist war reports and of arousing public apprehension.

Later a semi-official note was issued announcing France's intention to discontinue private negotiations and to carry the question of policing Morocco before the judgment of the world in the open conference.

The note states that it is evidently the desire of Germany to have the conference fail.

The bourse showed uneasiness as a result of the Morocco situation, but was not panicky.

GERMANY'S COURSE ATTACKED.

Newspapers of Paris Agree France

Has Reached Limit of Concession.

Paris, Feb. 20.—Notwithstanding the renewed strain in Franco-German relations growing out of the Moroccan question, public sentiment here remains entirely calm. The journals of this city, including those in the governmental interests, agree in attacking Germany's course in the Algiers conference. They agree that France has reached the limit of her concessions before the inflexible and almost humiliating pretensions of Germany. The comparative steadiness of the bourse today also indicates a disposition to philosophically accept the events at Algiers.

GOES TO SUPREME COURT

Contempt Case of Senator Patterson of Colorado to Be Reviewed.

Washington, Feb. 20.—Justice Brewer of the supreme court of the United States today entered an order granting a writ of error in the contempt case of United States Senator Patterson. A case grew out of the publication of a cartoon of the Colorado state supreme court in the Rocky Mountain News, of which Mr. Patterson is the proprietor. For this the state court held the senator to be in contempt and assessed a fine of \$1,000 against him.

The writ granted by Justice Brewer is made a supersedeas and the order stays all proceedings in the Colorado court for the collection of the fine. The case will be reviewed by the full bench of the supreme court.

WILL AMEND THE BILL.

(Special to The Herald.) Washington, Feb. 20.—The Heyburn bill permitting shipment of livestock for periods not exceeding thirty-six consecutive hours is to be amended, at suggestion of livestock men in convention here today, so as to eliminate the provision requiring railroads to maintain an average speed of sixteen hours on stock trains. The railroads had raised considerable opposition to this feature of the bill, and threatened to defeat it. Rather than run this risk, stockmen have urged that this provision be stricken from the bill and, on Thursday, when he calls the bill up for consideration, Senator Heyburn will offer an amendment to this effect. As amended it is believed the bill will pass the senate. Strong efforts are being made to have the bill favorably reported by the house committee.

EARTHQUAKES IN WEST INDIES.

Kingstown, St. Vincent, Sunday, Feb. 18.—The earthquake experienced Feb. 16 was followed by slight shocks occurring at intervals until Saturday morning, Feb. 17, almost simultaneously through the chain of islands from Grenada to Guadeloupe. Dispatches from St. Lucia and Grenada state that frequent detonations were heard during the night. Nothing was observed here indicating a seismic disturbance. La Soufriere and Mont Pelee are reported quiet.

WINTER WEAKNESS

Dr. Williams' Pink Pills the Tonic That Most People Need for Blood and Nerves.

In winter the air of the close rooms in which we spend so much of the time does not furnish enough oxygen to the lungs to burn out the foul matter in the blood. In the cold season we do not exercise as much and the skin and kidneys do not throw off the waste matter as freely as usual. The system becomes overloaded with poisonous matter, and too feeble to throw it off. Relief can be had only through the use of a remedy that will promptly and thoroughly purify and strengthen the blood, and the one best adapted for this purpose is the great blood tonic known as Dr. Williams' Pink Pills.

"They acted like magic in my case," said Mrs. Clara L. Wilde, of No. 377 Farnsworth avenue, Detroit, Mich. "I was weak and thin and could not sleep. My stomach and nerves were out of order. I can't describe how miserable I really was. I dragged through six months of feebleness, growing weaker all the time until I finally hadn't strength enough to leave my bed."

"Then a glad day came, the day when I began to take Dr. Williams' Pink Pills. They made me feel strong right away. My appetite came back, I took on flesh and the color returned to my cheeks. People wondered that these pills did for me what the doctors couldn't do. I took only six boxes and then I was perfectly well. I had not found this wonderful remedy I surely think that I must have wasted to death. Believing firmly that these pills saved my life by the strength which they gave me at a critical moment, I unhesitatingly recommend them to others."

Dr. Williams' Pink Pills contain no stimulant but give strength that lasts. They may be obtained at any drug store.

SPICE COMPANY SUES.

Alleges Money Is Due From Milling Company on Contract.

The Myers Royal Spice company of New York has begun action against the Intermountain Milling company for the recovery of \$2,488.84, alleged to be due on a contract for spices and condiments furnished the latter corporation by the Royal company. The action was begun yesterday in the United States circuit court. It has not been set for trial as yet.

In the complaint filed yesterday the Royal Spice company alleges that it entered into a contract with the Intermountain Milling company, about Jan. 1, 1905, whereby the former company was to furnish the latter company fifteen tons of spices and condiments at certain price. The contract also called for the naming of the Intermountain company as the sole state agent of the Royal company. It is alleged that the Intermountain company has failed to live up to the contract in all particulars.

FINAL ACCOUNT APPROVED.

Judge Armstrong Disallows Claims Against Snelgrove Estate.

The final account of the executors of the estate of Edward Snelgrove was approved by Judge Armstrong yesterday afternoon after a somewhat spirited objection on the part of some of the heirs. The executors were Owen and William K. Snelgrove. The latter sought to have approved a \$200 bill for boarding one of the minor heirs, which the court disallowed. Orin Snelgrove, one of the heirs, who had assigned his interest in the estate, sought to have the assignment set aside, but the court denied his application, and not only approved the final account, but signed a decree of distribution of the estate.

SETS CRIMINAL CASES.

Judge Armstrong Prepares Docket for Ensuing Term of Court.
